To whom it may concern

Subject: Review of the services provided by Mr. Sebastian Kevany, Monitoring and Evaluation Consultant

KPMG LLP entered a Framework Contract with the Global Fund to Fight AIDS, Tuberculosis, and Malaria (“the Global Fund”) to provide Local Fund Agent (LFA) services in various countries around the world. KPMG engaged Mr. Sebastian Kevany to provide Monitoring & Evaluation (M&E) services to assist KPMG in performance of LFA services.

Mr. Kevany served as key member of the project team, providing M&E services as part of the Local Fund Agent to the Global Fund directly since 2012, and prior to that through an agreement between KPMG and the University of California San Francisco (UCSF). His duties and responsibilities included the following:

- Analysis and assessment of the M&E plans, capacities, and functions of the Principal Recipients receiving Global Fund grants in the countries of Egypt, Iraq, Jordan, South Sudan, and Sudan, including providing strategic recommendations and elaboration of documents for optimizing and further strengthening the administrative capacity of the Principal Recipients;
- Analysis and assessment of data quality assessments for the management and implementation of the Global Fund programs in the countries noted above;
- Extensive international travel, including missions to Afghanistan, Iraq, Egypt, Sudan, and South Sudan, during times of political change.

In February 2013, KPMG LLP withdrew from the provision of services as LFA. We understand that Mr. Kevany continued to provide services directly to KPMG member firms at that time.

During his time working with KPMG LLP, Mr. Kevany was a valued member of KPMG team (US and international team members) and completed all related tasks under the terms of our agreement. We would be pleased to again work with Mr. Kevany should the opportunity arise.

Very truly yours,
KPMG LLP
